In nature, you may see many insects (昆虫) and animals of different colors. Have you ever wondered why?

Locusts are super delicious food for birds, but it is not always an easy job for birds to catch them. It is neither because locusts are good jumpers or runners nor because they are smarter than their enemies. The reason is that the colors of locusts change with the colors of crops (庄稼). When crops are young, locusts look green. But when autumn comes, locusts change to the yellow and brown color as crops do.

Brown bears, tigers and other animals move quietly through forests. They can't be seen easily by their enemies. This is because they have colors similar to the trees. For the same reason, polar bears that live on a land of snow and ice are white. Butterflies and bees living among the flowers are colorful like flowers. Soil insects are mostly dark-colored and they live under the soil (土壤) in a dark and wet environment. However, insects with colors different from plants can easily be found and eaten by others. So in order to **survive**, they have to hide themselves in the daytime and appear only at night.

Have you ever noticed some even stranger acts? The ink fish in the sea can send out some very black ink when it faces danger. As the ink spreads over, its enemies will find themselves suddenly in a dark world. At the same time the ink fish immediately swims away. That is how it keeps itself safe though it is not strong at all.

61. It is not easy for birds to catch locusts because _____.
- locusts are good runners
 - locusts can jump very high
 - locusts are smarter than birds
 - locusts can change their colors
62. According to the passage, most soil insects _____.
- do not have bright colors
 - change their colors with the soil
 - do not live in a dark and wet environment
 - eat colorful insects like butterflies and bees

63. What's the meaning of the underlined word "survive" in the passage?
 A. 繁殖 B. 产卵 C. 觅食 D. 生存
64. The ink fish _____ so that its enemies will not see it.
 A. changes its color B. makes the water around it black
 C. appears only at night D. hides itself in the sea rocks
65. What is the main idea of this passage?
 A. Some insects and animals have different skills.
 B. Some insects and animals are cleverer than we think.
 C. Some insects and animals use colors to protect themselves.
 D. Some insects and animals can get used to the environment easily.

请用适当的词完成下面这封信, 并把所缺单词填写在答题卡指定的位置上。每个空只能填写一个形式正确、意义相符的单词。

Dear Anne,

How are you? I had great fun last Wednesday,
71 12th, 2013. It was a traditional Chinese
festival called Dragon Boat Festival that day.

This festival is in memory of Qu Yuan, one of
72 greatest Chinese poets. He killed himself by
jumping into the Miluo River on May 5th of the lunar
calendar (阴历), 278 BC. People there rowed the boats to 73 him. But it was too late. They
were very sad and then threw rice into the 74 to feed the fishes so that they would stay away
from his body.

75 then on, every year on this day, people enjoy 76 Zongzi which is made of rice
with meat, eggs and so on. In the past we ate it only 77 a year, but now we regard it as our
daily food. We can have it any time we like.

Have you ever 78 the dragon boat race on TV? It is another important part of this festival.
Several teams row their dragon-shaped boats as 79 as they can. The first team to reach the
finish line wins.

If you have a plan to visit China next year, would 80 like to spend this festival with us?

Best wishes,

Xiao Qiang

六、读写综合 (本大题分为 A、B 两部分, 共 20 分)

A. 信息归纳 (本题共 5 小题, 每小题 1 分, 共 5 分)

请阅读下面这篇文章, 根据所提供的信息, 完成信息卡, 把答案写在答题卡指定的位置上。

Our class had a weekly class meeting this week. We talked about how to
deal with lies, hoaxes (骗局) or rumors (谣言). Here are the stories some
students told.

Zhang Wei: Yesterday my friend Jim went to school without his homework.
He told the teacher that his dog ate it. It was just an excuse he made to
cover the fact that he didn't do his homework. The teacher knew about
that and made Jim stay to finish his homework after school. Sometimes we
think we can avoid trouble by making excuses when we do something
wrong, but we're really making the problem bigger.

Chen Ping: Last week I got a message. It said, "A little girl called Julia has brain cancer. The girl will get three cents from *American Online* each time this message is forwarded (转发). So please be kind and forward this to everyone you know. If not, you will have bad luck for a year." In fact, it is just one of the silly chain letters (连锁信) to cheat you and waste your time.

Xu Yan: A big earthquake (地震) hit Ya'an, Sichuan on April 20th. The earthquake was strongly felt by people in Chengdu. A rumor said Chengdu would be hit by a bigger earthquake in the coming days. For the next several days, thousands of people camped outside their houses at night because of fear. Besides, many people rushed to buy food, water, medicine and so on. Some businessmen used people's fear of earthquakes to help sell their goods (商品) at a higher price. Of course, nothing happened in the end.

面对谎言

Good morning, everyone! Let me introduce myself first. My name is Li Ming, a student from Class One, Grade Nine, Hongxing Middle School. Yesterday afternoon, the student on duty said he had to see the doctor. I offered to do the cleaning for him. Later I found him playing basketball on the playground. I was quite unhappy. He needn't tell the lie. I would do the duty for him if he asked.

As students, we should always tell the truth even if others might not agree with us. When others tell lies, we'd better make them understand that honesty is the best policy.

That's all. Thank you. (95 words)

面对骗局

Good morning, everyone! Let me introduce myself first. My name is Li Ming, a student from Class One, Grade Nine, Hongxing Middle School. Last year, I received a chain letter saying that only kind people could receive the letter. If I sent it to as many people as possible, I would get good luck. But if I didn't, I would die the next day. I was so scared that I sent it to some of my friends.

As students, we shouldn't forward such chain letters. If we don't know how to deal with them, we'd better ask our teachers or parents for help.

That's all. Thank you. (95 words)

面对谣言

Good morning, everyone! Let me introduce myself first. My name is Li Ming, a student from Class One, Grade Nine, Hongxing Middle School. I heard a rumor of the same kind this year. It is said that a Chinese medicine called Banlangen could kill the flu of H7N9 or some diseases like that. So it was sold out in our city very soon. I thought it was so silly and I didn't believe it at all. I would rather ask the doctor for advice than buy the medicine.

As students, we should keep calm when we face such rumors. Besides, we shouldn't believe or spread them.

That's all. Thank you. (98 words)
